

This IP Assignment Agreement is entered into as of **April 11, 2026** between **Null Stackers (Pvt.) Ltd.** (the "**Company**") and each of its Founders, employees, and contractors ("**Assignors**").

CLAUSE 1 — DEFINITIONS — INTELLECTUAL PROPERTY

"Intellectual Property" means, without limitation, all of the following whether registered or unregistered:

- Source code, object code, scripts, algorithms, databases, APIs, and data models.
- Technical designs, system diagrams, software architectures, and specifications.
- Business plans, pitch decks, financial models, and market research.
- Brand assets: company name, logos, trademarks, slogans, and visual identity.
- Domain names, social media handles, and digital accounts created for the Company.
- Patents, patent applications, inventions, and discoveries.
- AI model weights, training datasets, fine-tuned models, and prompt libraries.
- Trade secrets, proprietary workflows, and confidential methodologies.
- All derivative works built upon any of the above.

CLAUSE 2 — ASSIGNMENT OF IP

2.1 Unconditional Assignment. Each Assignor irrevocably assigns, transfers, and conveys to the Company all right, title, and interest in all IP created, developed, invented, or conceived during and arising from their engagement with the Company.

2.2 Work Made for Hire. To the extent permitted by law, all IP within the scope of an Assignor's role constitutes "work made for hire," with the Company as sole author.

2.3 Scope. Covers IP created: (a) during working hours; (b) using Company resources or confidential information; or (c) related to the Company's business — regardless of location.

2.4 Pre-existing IP. IP created prior to the Effective Date and listed in Schedule A remains the Assignor's personal property. Any such IP incorporated into the Company's product requires a perpetual, royalty-free licence to the Company.

CLAUSE 3 — WAIVER OF MORAL RIGHTS

Each Assignor waives all moral rights (including attribution and integrity rights) in all IP assigned to the Company under this Agreement, to the fullest extent permitted by applicable law.

CLAUSE 4 — COOPERATION & FURTHER ASSURANCES

Each Assignor shall execute any additional documents and take all actions reasonably necessary to perfect, register, or enforce the Company's IP ownership worldwide. This obligation survives the termination of the Assignor's engagement.

CLAUSE 5 — EMPLOYEES & FUTURE CONTRACTORS

5.1 Mandatory Signing. All employees and contractors must execute this Agreement before commencing any work for the Company.

5.2 Open-Source Disclosure. Incorporation of third-party open-source code requires prior written disclosure to the CTO. Copyleft licences (e.g., GPL) require CTO and CEO approval.

5.3 External Developers. All subcontractors must sign a work-for-hire clause explicitly transferring all deliverable ownership to Null Stackers.

CLAUSE 6 — REMEDIES FOR BREACH

Any breach causing unauthorized use or misappropriation of the Company's IP entitles the Company to: (a) injunctive relief; (b) compensatory and consequential damages; and (c) any other remedies at law or equity. Assignors acknowledge monetary damages alone may be inadequate and that injunctive relief is appropriate.
